

## Allee Elm

5-9

- **Category:** Trees
- **Type:** Deciduous
- **Exposure:** Full Sun / Part Shade
- **Fall Color:** Yellow
- **Blooms:** Spring
- **Foliage:** Green
- **Form:** Round
- **Maximum Growth:** Approx. 40' h x 40' w
- **Zones:** 5 to 9
- **Drought Tolerance:** High
- **Scientific Name:** *Ulmus parvifolia* 'Allee'
- **Usage:** Parking Lot, Street Tree

### Introduction

Allee Elm is a graceful round-headed tree often with pendulous branchlets. Grows to a medium to fast rate depending on moisture and fertility levels. Leaves are dark green turning to yellowish to reddish purple in fall. The bark is a mottled combination of gray, green orange and brown. Flowers are with green blooms appearing in spring.

### Use and Management

Allee elm is a low maintenance tree. Feed once a year with slow release fertilizer for a healthier tree. Prefers rich soils but is found in a range of well-drained soil types. Grows in partial sun to full sun.

The tree form is rounded and vase shape, making Allee Elm a good street tree or yard tree, providing adequate shade to any yard.

### Planting

- Typically planted in 10, 15, 30, or 45 gal containers.
- B&B trees are specified in height (6' – 8' ht, etc) or caliper (3" cal., etc)
- Container trees can be double the price of B&B trees
- Plant container trees in late summer, if price allows
- Plant B&B trees if they were dug and cured in the winter months
